TABATHA BAGLEY'S DESIGN

Every since i went to my first rodeo when I was 4, I told myself I was going to ride a bull. I look foward to doing that after I graduate. So therefore I made a collage.

This is my Rotoscope photo. On photoshop I used a blur filter. It kind of turned into a cartoon.

Sketches

IN PHOTOS LIKE THIS ALL YOU NEED TO DO IS EDIT YOUR FILTER. I USED THE SKETCH FILTER. THIS IS A PICTURE OF ME AND MY NEPHEW.

Country

In this photo I cut this image into a word that describes my family.

COUNTRY

Deleted Background

This is a photo of my middle sisters wedding. I had to select the back-ground and delete the edges.

Photo in movement.

In this photo i used a filter to make it look like it was blur and in motion.

Shadow

*This photo I had to delete
the background and shade
my shadow.*

Picture in a Shape

I did this photo for my dad because he has cancer. I used the paw design because he loves clemson and this picture has a orange tint to it.

ALL THAT WAS DONE IN THIS
PHOTO IS THAT I DARKENED
IT.

PUZZLE

In this pot is my mom, 2 sisters, and I. I choose to use this one as my puzzle photo because we always end up coming back together no matter what. In this photo we used alot of tools.

PUZZLE

**This is a photo of
my, my mom, two
sisters, and my
moms friend at a
concert..**

IN THIS PHOTO I DESIGN MY LOGO COUSTOM. I LOVE TO FISH AND HUNT SO I CONJOINED THEM AND CAME UP WITH HUNT THE FISH.

V-FROG

I loved the way this background has a texture. I liked how I could change the background and texture for each thing my magic wand selected.

These are my 3-D logo designs. SOUTHERN represents me, CANCER represents my dad that's fighting for cancer, and CELL was just a cool background that I created.

Cartoon Photo

In this photo I used a picture I took in this class because I figured I could actually make my highlights pop out of my hair color.

**In this photo we were asked to clone
2 noses, extra teeth, and a extra eye.
I laugh everytime I look at this photo.**

EYE ART

I do not like to wear makeup so I wonder if I did what would it look like now i can see by using several different skills and tools.

YOU ARE WHAT YOU EAT

I used the cropping tool and the erase tool most for this project.

My story board tells a story about a girl having a bad day. And it describes it in little bubbles.

This story board was about a day at school. I was leaving school to go home. It just shows me getting on and off the bus. I had to design a background for this photo story board also.

MAGAZINE COVER

I PLAYED SOFTBALL FOR 2 YEARS THIS IS WHY I CHOOSE TO MAKE MY MAGAZINE COVER A SOFTBALL PAGE.
